- SQL (basic)
- Git / GitHub
- Algorithms
- Data Structures
- OOP, Python

Achievements

Projects

Test English App ([Website URL](#)).

(React, Redux, Bootstrap, CSS)

A web-based English language assessment application designed to evaluate users' reading and listening skills through timed tests of varying difficulty levels. Developed using React and Redux for frontend functionality, styled with CSS and Bootstrap. Features include quick and standard tests, with plans for an advanced test and user progress tracking. The app aims to provide an engaging and structured learning experience to help users improve their English proficiency.

Study Hub ([Website URL](#)).

(React, Redux, Bootstrap, CSS)

A learning platform that allows users to browse and enroll in courses, track progress, and manage user profiles. The website features a responsive design and a dynamic, user-friendly interface.
